

What happened to FREEDOM??? When the NAB pays for my XM Sattelite subscription then they can tell me what I am can and can't listen to. I choose XM because it gives me the FREEDOM to choose what I listen to, when I want to listen to it. If the owners of the broadcast stations can't make enough money selling 20 minutes of commercials per hour then maybe they should take a strong look at their business expenses.  
Reject petition 04-160 and do what the broadcast stations don't do...understand the desire of those who support YOU!
